

Le Safari Grandeur Nature 08 Nights

Summary

Ngorongoro Crater. Watch out for the famous tree climbing lions and admire endless flocks of flamingoes on the shores of Lake Manyara. Discover the abundant resident wildlife of the Serengeti or experience the massed game of the annual Great Migration, with its thundering hordes of zebra and wildebeest. Marvel at the breathtaking beauty of the world's largest intact caldera at the Ngorongoro Crater and experience the incredible density of animals on the Crater floor.

Day 1: Kilimandjaro - Arusha

Upon arrival at Kilimanjaro Airport, meet greet and transfer to Arusha

Day 2: Tarangire

In the morning, depart toward the Tarangire Park with your Guide/Driver

Enjoy a full day, safari, with a picnic lunch

Late afternoon, depart toward Maramboi.

Day 3: Manyara

Today you depart toward the Manyara Park your Guide/Driver

Enjoy a full day, safari, with a picnic lunch, under the acacias tree

Late afternoon, depart toward Karatu.

Day 4: NgoroNgoro Crater

You will depart today for the discovery of the NgoroNgoro crater, with a picnic lunch

Day 5, 6: Serengeti

Depart toward Serengeti in the morning

Two full days, to discover Serengeti. Tanzania's oldest and most popular national park, also a world heritage site and recently proclaimed a 7th worldwide wonder, the Serengeti is famed for its annual migration, when some six million hooves pound the open plains, as more than 200,000 zebra and 300,000 Thomson's gazelle join the wildebeest's trek for fresh grazing. Yet even when the migration is quiet, the Serengeti offers arguably the most scintillating game-viewing in Africa: great herds of buffalo, smaller groups of elephant and giraffe, and thousands upon thousands of eland, topi, kongoni, impala and Grant's gazelle

Day 7: Serengeti-Natron

In the morning, depart toward Natron and enjoy a picnic Lunch, during the course of the day

Late afternoon, arrival at the lake Natron, a salt lake located in northern Tanzania, close to the Kenyan border, and just north east of the Ngorongoro Crater, in the eastern branch of Africa's immense Great Rift Valley

Nestled between rolling volcanic hills and deep craters, Lake Natron sits at the lowest point of the rift valley — 600m above sea level — and is probably the world's most caustic body of water But for those who do choose to visit Natron, they are rewarded with some of the most dramatic scenery they have ever seen in Tanzania. It is said, that the journey alone is worth it for the views.

Day 8: Natron

Start your day with a walk Masai to the lake with a closest approach to the flamingos or camels visible only in this region

Lake Natron stretches for hundreds of square miles and offers stunning landscapes with Lake color changes

After lunch, walk with a Masai guide toward the Waterfalls “Engare Sero” at the bottom of a beautiful gorge
